Costa Rica

Contacts, copies

Dear Leonel,

I had a chance for a quick visit to Limnon and Cahuita, together with an employee of the German Embassy in San José. But the last days in Costa Rica were not so agreeable as the three weeks before – my camera was stolen in the university, and I had to move to a hotel near the airport because of the demonstrations.

Back home, I first had to organise my lectures, sit in meetings, and go on an excursion to Leipzig and Dessau (Bauhaus) with 70 students. Now things become more and more normal, and I can send you some material.

I have sent copies of your work to two galleries, 20.21 in Essen, and Galerie Monika Reitz in Frankfurt am Main – without any answer yet, what's not surprising in this business.

I could not get in touch with Anselm Kiefer, but I am working on it.

The magazine *MAX* is interested in a feature – in principle, but they have not made any decisions yet. I enclose some copies of pages of the magazine.

The only thing, I can send you now, are the drawings and views of the construction of typical houses in Northern Germany, I told you.

I will keep going on,

best wishes to you and your family,
